

The SV411KUSB 4 Port USB KVM Switch Kit with Audio and Cables lets you control up to four USB-enabled computers using a single keyboard, mouse and VGA monitor and offers both hotkey and top panel push-button operation for simple switching between connected computers.

Designed to integrate seamlessly into any environment, the USB KVM switch offers a small footprint design (roughly the size of a deck of playing cards) and draws power from the connected computers, so it doesn't require an external power supply.

A suitable solution for virtually any application, the USB KVM switch supports video resolutions of up to 2048 x 1536 as well as audio switching. The USB KVM switch includes four, 4ft 4-in-1 VGA and USB Host Cables, providing everything needed for quick installation to provide a complete, out-of-the-box KVM solution.

Delivering dependable and convenient control of multiple computers from a single peripheral station, the KVM switch is backed by a StarTech.com 2-year warranty and free lifetime technical support.

- Control 4 USB-enabled computers using a single keyboard, mouse, and VGA monitor
- Applicable for call centers, help desks, education environments, home gamers, video editing, and PC enthusiasts
- Great for PC test/burn-in computer control saving the desk space required for multiple monitors, keyboards and mice
- Multiple system control for single user workstations, increasing user productivity in the office
