

# Cisco Aironet 1815i Access Point

Ideal for small and medium-sized networks, the Cisco® Aironet® 1815i Access Point brings a full slate of Cisco high-performance functionality to the enterprise environment.

## Product Overview

The Cisco Aironet 1815i delivers industry-leading wireless performance with support for the latest Wi-Fi standard, IEEE 802.11ac Wave 2 (Figure 1). It also meets the growing requirements of wireless networks by delivering a better user experience.

The 1815i extends support to a new generation of Wi-Fi clients, such as smartphones, tablets, and high-performance laptops that have integrated 802.11ac Wave 1 or Wave 2 support.

**Figure 1.** Cisco Aironet 1815i Access Point

## Features and Benefits

By adhering to the 802.11ac Wave 2 standard, the 1815i offers a data rate of up to 867 Mbps on the 5-GHz radio. This exceeds the data rates offered by access points that support the 802.11n standard. It also enables a total aggregate dual-radio data rate of up to 1 Gbps. This provides the necessary foundation for enterprise and service provider networks to stay ahead of the performance expectations and needs of their wireless users.

Due to its convenience, in recent years corporate users have increasingly preferred wireless access as the form of day work, but should enable a high-performance experience while allowing users to move freely. The 1815i delivers industry-leading performance for highly secure and reliable wireless connections and provides a robust mobility end-user experience. Table 1 lists the features and benefits of the 1815i.

**Table 1.** Features and Benefits

Feature	Benefit
<b>MU-MIMO</b>	Multiuser (MU) multiple-input multiple-output (MU-MIMO) allows transmission of data to multiple 802.11ac Wave 2 capable clients simultaneously to improve the client experience. Prior to MU-MIMO, 802.11n and 802.11ac Wave 1 access points could transmit data to only one client at a time, typically referred to as single-user MIMO (SU-MIMO). 802.11ac Wave 2 with 2x2:2 MIMO technology uses two spatial streams when operating in SU-MIMO or MU-MIMO mode, offering 867-Mbps rates for more capacity and reliability than competing access points.
<b>Cisco Mobility Express solution</b>	Flexible deployment through the <a href="#">Mobility Express solution</a> is ideal for small to medium-sized deployments. Easy setup allows the 1815i to be deployed on networks without a physical controller.
<b>Integrated Bluetooth 4.1</b>	Integrated Bluetooth low-energy (BLE) 4.1 radio for location and asset tracking (future availability).

## Prominent Features

### Increased wireless performance

The 1815i access point supports the latest 802.11ac Wave 2 standard for higher performance, greater access, and higher-density networks. With simultaneous dual radios and dual band with 802.11ac Wave 2 MU-MIMO functionality, this access point can handle the increasing number of high-bandwidth devices that will soon become a common part of the network.

### Wired access

The 1815i allows wired access via a single RJ-45 10/100/1000 auto-detection port. It supports full operation modes using PoE 802.3af power.

### Mounting

These sleek access points with a small form factor are designed with flexible mounting options in mind. You can mount them directly on the ceiling or a wall. They are also easy to install.

## Product Specifications

Table 2 lists the specifications for the Cisco Aironet 1815i Access Point. P / NB specifications.

**Table 2.** Specifications

Item	Specification
<b>Authentication and security</b>	Advanced Encryption Standard (AES) for Wi-Fi Protected Access 2 (WPA2) 802.1X, RADIUS authentication, authorization, and accounting (AAA) 802.11r 802.11i
	Cisco Unified Wireless Network Software with AireOS Wireless Controllers Release 8.5 or later Cisco Mobility Express (future availability)
<b>Maximum clients</b>	Maximum number of associated wireless clients: 200 per Wi-Fi radio, in total 400 clients per access point

Item	Specification								
Ethernet ports	Authentication with 802.1X or MAC filtered Dynamic VLAN or per port Traffic locally switched or tunneled back to wireless LAN controller								
Bluetooth (future availability)	Integrated Bluetooth 4.1 (including BLE) radio Maximum transmit power: 4 dBm Antenna gain: 2 dBi								
Data rates supported	802.11a: 6, 9, 12, 18, 24, 36, 48, 54 Mbps								
	802.11b/g: 1, 2, 5.5, 6, 9, 11, 12, 18, 24, 36, 48, 54 Mbps								
	802.11n data rates on 2.4 GHz:								
	MCS Index <sup>1</sup>	GI <sup>2</sup> = 800 ns			GI = 400 ns				
		20-MHz Rate (Mbps)			20-MHz Rate (Mbps)				
	0	6.5			7.2				
	1	13			14.4				
	2	19.5			21.7

Item	Specification	
<b>Available transmit power settings</b>	<b>2.4 GHz</b>	<b>5 GHz</b>
	20 dBm (100 mW) 17 dBm (50 mW) 14 dBm (25 mW) 11 dBm (12.5 mW) 8 dBm (6.25 mW) 5 dBm (3.13 mW) 2 dBm (1.56 mW) -1 dBm (0.78 mW)	20 dBm (100 mW) 17 dBm (50 mW) 14 dBm (25 mW) 11 dBm (12.5 mW) 8 dBm (6.25 mW) 5 dBm (3.13 mW) 2 dBm (1.56 mW) -1 dBm (0.78mW)
<b>Note:</b> The maximum power setting will vary by channel and according to individual country regulations. Refer to the product documentation for specific details.		
<b>Integrated antennas</b>	2.4 GHz, gain 2 dBi 5 GHz, gain 4 dBi	
<b>Interfaces</b>	1 x 10/100/1000BASE-T autosensing (RJ-45), Power over Ethernet (PoE) Management console port (RJ-45)	
<b>Indicators</b>	Status LED indicates boot loader status, association status, operating status, boot loader warnings, boot loader errors	
<b>Dimensions (W x L x H)</b>	Access point (without mounting bracket): 6 x 6 x 1.3 in (150.8 x 150.8 x 33 mm)	
<b>Weight</b>	Access point without mounting bracket or any other accessories: 14 oz (400 g)	
<b>Environmental</b>	Operating <ul style="list-style-type: none"> <li>◦ Temperature: 32° to 104°F (0° to 40°C)</li> <li>◦ Humidity: 10% to 90% (noncondensing)</li> <li>◦ Max. altitude: 9843 ft (3000 m) @ 40°C</li> </ul> Nonoperating (storage and transportation) <ul style="list-style-type: none"> <li>◦ Temperature: -22° to 158°F (-30° to 70°C)</li> <li>◦ Humidity: 10% to 90% (noncondensing)</li> <li>◦ Max. altitude: 15,000 ft (4500 m) @ 25°C</li> </ul>	
<b>System</b>	1 GB DRAM 256 MB flash 710 MHz quad core	
<b>Input power requirements</b>	Power injector: AIR-PWRINJ5= or AIR-PWRINJ6=	
<b>Powering options</b>	802.3af/at Ethernet switch Optional Cisco power injectors (AIR-PWRINJ5=, AIR-PWRINJ6=)	
<b>Power draw</b>	8.3W (maximum, on PoE)	
<b>Physical security</b>	Torx security screw, included with the access point	
<b>Mounting</b>	Included with the access point: mounting bracket AIR-AP-BRACKET8	
<b>Accessories</b>	Mounting bracket: AIR-AP-BRACKET8= (available as spare) Physical security kit: AIR-SEC-50= (sold separately), with 50 pcs. Security screws used to secure access point onto wall-mounting bracket, 50 pcs. RJ-45 caps and 2 pcs. unlock keys used to block physical access to Ethernet ports	
<b>Warranty</b>	Limited Lifetime Hardware Warranty

<sup>1</sup> MCS Index: The Modulation and Coding Scheme (MCS) index determines the number of spatial streams, the modulation, the coding rate, and data rate values.

<sup>2</sup> A guard interval (GI) between symbols helps receivers overcome the effects of multipath delay spreads.

## Ordering Information

Table 4 provides ordering information for the Cisco Aironet 1815i Access Point. To place an order, visit the [Cisco Ordering homepage](#). To download software, visit the [Cisco Software Center](#).

**Table 4.** Ordering Information

Product Name	Part Number
Cisco Aironet 1815i	AIR-AP1815i-x-K9: Dual-band, controller-based 802.11a/g/n/ac, Wave 2
	AIR-AP1815i-x-K9C: Dual-band 802.11a/g/n/ac Wave 2 with default software Mobility Express (future availability)
	◦ Regulatory domains: (x = regulatory domain)

## Warranty Information

The Cisco Aironet 1815i Access Point comes with a Limited Lifetime Warranty that provides full warranty coverage of the hardware for as long as the original end user continues to own or use the product. The warranty includes 10-day advance hardware replacement and ensures that software media is defect-free for 90 days. For more details, visit: <http://www.cisco.com/go/warranty>.

Find warranty information on Cisco.com at the [Product Warranties](#) page.

## Cisco Capital

### Financing to Help You Achieve Your Objectives

Cisco Capital® can help you acquire the technology you need to achieve your objectives and stay competitive. We can help you reduce CapEx. Accelerate your growth. Optimize your investment dollars and ROI. Cisco Capital financing gives you flexibility in acquiring hardware, software, services and complementary third-party equipment.
