## Cabling Kits and Accessories

Connectix Cat5e and Cat6 termination kits include all the products required for terminating RJ45 Cat5e/6 Cables & Testing the finished leads (cable not included in basic kits).

The Connectix Cabling Systems Installation Tool kit contains all the tools needed for installing data cabling in one convenient package. The kit contains a pozi-drive screwdriver for cage nuts and cabinet shelves, and a flat blade screwdriver for faceplate screws. It also includes a set of wire cutters, a punch-down tool, cable stripping tool and the Connectix Tester - an easy to use diagnostic tool to confirm connectivity of installed cabling.
