

Voice Cabling Products

50 Way Voice Panel

Cabinet space is too valuable to have it taken up by stacks of voice panels, which is why Connectix offer a High Density voice panel packing 50 dedicated voice ports into a 1u panel.

Each 8 way RJ45 socket has three pairs connected. This ensures that the panels can be used with analogue, digital and ISDN systems.

Features & Benefits

- 50 voice ports in 1u
- 8 way RJ45 sockets with three pairs connected
- Analogue, digital and ISDN systems supported

Ordering Information

Product Description	Part Number
50 Way Voice Panel	009-001-002-10

Product Specifications	
Width	483 mm (19")
Depth	120 mm
Height	1U (44 mm)
Fixing Centres	467 mm
