- Includes 6' Standard KVM Cables
- Convenient Select Button and Hot-Keys
- Plug and Play

Home & Office KVM Solutions

4-Port KVM Switch

The D-Link DKVM-4K is a 4-port PS/2 based KVM switch for controlling up to 4 computers using a single monitor, keyboard, and mouse. The DKVM-4K minimizes clutter on your desktop with its sleek, compact design. Ready to work right out of the box, the DKVM-4K requires no drivers, extra power supplies, or accessories and is compatible with all Windows® Operating Systems.

The DKVM-4K is convenient and simple to use with features such as: at a glance LED indicators for computer status, hot keys and

push buttons for switching between computers, included 6' standard cables, and an autoscan mode for automatically detecting computers connected to the switch. You get added flexibility with the DKVM-4K's hot plug capability—add or disconnect computers simply by unplugging the cables without having to power down your computers! Versatile, portable, and convenient, the D-Link DKVM-4K can be easily integrated into your existing desktop environment at home or in the office.
