The CCS Starlight® Pre-terminated Plug and Go Fibre System provides the Rapid Fibre Deployment market with an extremely cost effective, expandable and high speed system.

Starlight® utilises MTP® brand pre-terminated assemblies to ensure optimum performance is achieved when interconnecting pre-terminated Starlight® cassettes and panels.

Assemblies are available in 12, 24, 48, & 72 fibres, and micro and ruggedised cable in multimode OM1 62.5/125, OM3 50/125 and singlemode OS2 9/125 options.

The Starlight® System is manufactured in our advanced fibre termination facilities under stringently controlled laboratory conditions, and is quality controlled to rigorous standards using advanced fibre interferometer testing equipment.

Starlight® pre-terminated assemblies surpass the high standards required for datacomms and CATV applications.
